This aspect is not to Professor Pope as he is not responsible for determining the assignments associated with the externship. I would encourage the program and writing assignments be reevaluated. The classroom component took away substantially from the time that I could be at my externship placement. The focus should be on the student being at the placement as much as possible.

<b>VALUE The classes were well-organized</b>					<b>NUM</b>

The materials not provided by Professor Pope and instead by the externship program were ill suited for the Health Law transactional positions that I and most of my classmates were in. We discussed this with Professor Pope and we thought that there should be some distinction between those more traditional positions and ones like ours.

**What was the best thing about this course and/or instructor?**

The practical experience that I gained from this I believe will be the most helpful aspect of my education in landing a job

The placement. I loved mine.
