Before the Committee on the Budget,  
U.S. Senate

**CBO**  
PAPER

JANUARY 2008  
Technological  
Change and the  
Growth of  
Health Care  
Spending

For Release on Delivery  
Expected at 10:00 a.m. EST  
Thursday, January 21, 2008

**LONG-TERM FISCAL  
OUTLOOK**

Action Is Needed to Avoid  
the Possibility of a Serious  
Economic Disruption in the  
Future

The image shows a person lying in a hospital bed, seen from above through a circular opening in a ceiling. The person is covered with a white sheet, and their head is visible. The scene is dimly lit, with light coming from the opening above, creating a dramatic effect. This image is part of the cover for the CBO paper 'Technological Change and the Growth of Health Care Spending'.

## More 'empowered' patients question doctors' orders

Updated 11h 9m ago | Comments 68 | Recommend 4 | E-mail | Save | Print | Reprints & Permissions | RSS

By **Mary Brophy Marcus, USA TODAY**

In the past, most patients placed their entire trust in the hands of their physician. Your doc said you needed a certain medical test, you got it.

Not so much anymore.

Jeff Chappell of Montgomery, Ala., recalls a visit a couple of years ago to a Charlotte emergency room, near where the family

# Why do providers resist surrogate requests?

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

### Avoid patient suffering

“This is the Massachusetts General Hospital, not Auschwitz.”

“abomination,”  
“immoral,”  
“tantamount to torture”

---

---

---

---

---

---

---

---

## Moral distress

---

---

---

---

---

---

---

---

Category: futile care

1. Follow the family's wishes for the patient's care when I do not agree with them but do so because hospital administration fears a lawsuit	41 (93)	29 (66)
2. Follow the family's wishes to continue life support even though it is not in the best interest of the patient	42 (95)	39 (89)
3. Carry out a physician's order for unnecessary tests and treatment	43 (98)	32 (73)
5. Initiate extensive life-saving actions when I think it only prolongs death	44 (100)	38 (86)
12. Carry out the physician's orders for necessary tests and treatments for terminally ill patients	43 (97)	30 (68)
19. Prepare an elderly man for surgery to have a gastrostomy tube put in, who is severely demented and a "No Code"	42 (95)	18 (41)

---

---

---

- More palliative care
- More EOL training
- Provider rights
- Financial incentives

---

---

---

---

---

---

---

---

**Typical dispute resolution pathway**

---

---

---

---

---

---

---

---

## How are futility disputes usually resolved?

1. Surrogate eventually agrees with HCP
2. HCP accedes to surrogate demands
3. Patient dies
4. Patient transferred

1 2 3 4

---

---

---

---

---

---

---

---

## Prendergast (1998)

- 57% surrogates immediately agree
- 90% agree within 5 days
- 4% continue to insist on LSMT

---

---

---

---

---

---

---

---

## Garros et al. (2003)

---

---

---

---

---

---

---

---

### Fine & Mayo (2003)

---

---

---

---

---

---

---

---

### Hooser (2006)

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

1. Earnest attempts . . . **deliberate over and negotiate** prior understandings . . .
2. **Joint decision-making** should occur . . . maximum extent possible.
3. Attempts . . . **negotiate . . . reach resolution . . . , with the assistance of consultants** as appropriate.
4. Involvement of . . . **ethics committee** . . . if . . . irresolvable.

---

---

---

---

---

---

---

---

5. . . . .
6. If the process supports the physician's position and the patient/proxy remains un-persuaded, **transfer** . . .
7. If transfer is not possible, the **intervention need not be offered**.

---

---

---

---

---

---

---

---

---

**Perceptions of “futile care” among caregivers in intensive care units**

Robert Sibbald MSc, James Downar MD, Laura Hawryluck MD MSc

CMAJ 2007;177(10):1201-8

“Why they follow the instructions of SDMs instead of doing what they feel is appropriate, almost all cited a **lack of legal support.**”

---

---

---

---

---

---

---

---

---

---

Resolution 505-08      **TITLE:** LEGAL SUPPORT FOR NONBENEFICIAL TREATMENT DECISIONS  
**Author:** H Hugh Vincent, MD; William Andreck, MD  
**Introduced by:** District 8 Delegation  
**Endorsed by:** District 8 Delegation      Reference Committee  
 October 4-6, 2008

*This resolution constitutes a proposal for consideration by the California Medical Association House of Delegates and does not represent official CMA policy.*

**E**

WHEREAS, it is still common for physicians who feel non-beneficial or futile treatments are being provided or considered to feel threatened by legal action by the patient’s family or other surrogates, and thus continue to provide such care against their best medical judgment; and

---

---

---

---

---

---

---

---

---

---

Factor	Extremely or Very Important	Most Important of All Factors Listed
Patient’s prognosis	98.5	12.0
What was best for the patient overall	98.1	33.2
Respecting the patient as a person	96.6	5.4
Patient’s pain and suffering	94.6	12.5
What the patient would have wanted you to do	81.8	29.4
Providing the standard of care	81.5	2.2
Respecting the wishes of the family or surrogate(s)	80.9	3.3
Following the law	68.6	1.1
The burden on the family	44.8	0
Religious beliefs of the patient	35.3	0
Religious beliefs of the family or surrogate(s)	28.6	0
Cost to society of caring for the patient	14.2	0
Physician’s religious beliefs	10.7	0
Concerns about paying for medical care	9.3	0
Concern that the surrogate(s) might sue	8.4	1.1

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

# Damages

---

---

---

---

---

---

---

---

## Exposure to civil liability

- State HCDA (incl. fees)
- Battery
- Medical malpractice
- IIED / NIED
- Informed consent
- EMTALA

---

---

---

---

---

---

---

---

## Criminal liability

- e.g. homicide

## Licensure discipline

---

---

---

---

---

---

---

---

**What is the legal risk from unilateral w/h or w/d**

- 25% 1. High
- 25% 2. Medium
- 25% 3. Low, yet material
- 25% 4. Low and immaterial

---

---

---

---

---

---

---

---

Providers have **won almost every single** damages case for unilateral w/h, w/d

---

---

---

---

---

---

---

---

***Burks v. St. Joseph's Hosp.***, No. 95-CV-002639 (Milwaukee Cir. Ct. 1996), 596 N.W.2d 391 (Wis. 1999).

---

---

---

---

---

---

---

---

Providers typically only lose on claims for IIED

- Secretive
- Insensitive
- Outrageous

---

---

---

---

---

---

---

---

Luce is confirming the trend of **un**successful lawsuits against providers

---

---

---

---

---

---

---

---

**Risk > 0**

---

---

---

---

---

---

---

---

- Barber (Cal. 1983)
- Manning (Idaho 1992)
- Rideout (Pa. 1995)
- Bland (Tex. 1995)
- Wendland (Iowa 1998)
- Causey (La. 1998)

---

---

---

---

---

---

---

---

Grossly overstated risks

But **some** real exposure

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

“It is **not** settled law that, in the event of disagreement . . . **the physician** has the final say.”

*Golubchuk v. Salvation Army Grace Gen. Hosp.*, 2008 MBQB 49 (Feb. 13, 2008).

---

---

---

---

---

---

---

---

“The only fear a doctor need have in denying heroic measures to a patient is the **fear of liability** for negligence . . . where qualified practitioners would have thought intervention warranted.”

*Child & Fam. Svcs. v. Lavallee* (Man. App. 1997).

---

---

---

---

---

---

---

---

But the process itself can be punishment

Even prevailing parties pay transaction costs

---

---

---

---

---

---

---

---

**Liability** averse

**Litigation** averse too

---

---

---

---

---

---

---

---

Providing  
good,  
clinically  
appropriate  
medicine

---

---

---

---

---

---

---

---

Acceding  
to  
surrogate  
demands

---

---

---

---

---

---

---

---

Easier to accede to surrogate demands

- Patient will die
- Provider will round off
- Nurses bear brunt

But not happy about it

---

---

---

---

---

---

---

---

# Injunctions

---

---

---

---

---

---

---

---

Courts frequently grant **temporary** injunctions to preserve status quo

But patients often **die** before adjudication of merits

---

---

---

---

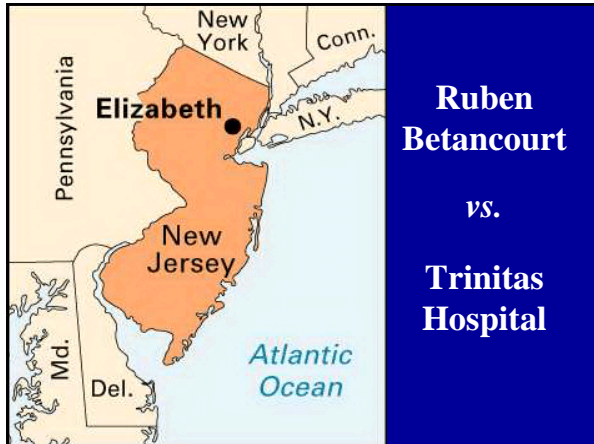

---

---

---

---

---

---

---

---

---

---

---

---

- 73yo male
  - PVS
  - COPD
  - End-stage renal disease
  - Hypertensive cardiovascular disease
- Stage 4 decubitus ulcers
  - Osteomyelitis
  - Diabetes
  - Parchment-like skin

---

---

---

---

---

---

---

---

- “The only organ that’s functioning really is his heart.”
- “It all seems to be ineffective. It’s not getting us anywhere.”
- “We’re allowing the man to lay in bed and really deteriorate.”

---

---

---

---

---

---

---

---

**Intramural process**

No consensus

**Unilateral withdrawal**

- DNR order written
- Dialysis port removed

---

---

---

---

---

---

---

---

**January 21, 2009**

Jacqueline files complaint

**January 23, 2009**

Court issues TRO

**February 10, 2009**

Court extends TRO

---

---

---

---

---

---

---

---

**January – February 2009**

Evidentiary hearings

Medical expert witnesses

**August 13, 2010**

Appellate court  
refuses to reverse

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

Easier to ask for forgiveness, than to ask for permission

---

---

---

---

---

---

---

---

“The Court cannot require a medical advisor to act . . . contradictory to . . . bona fide clinical judgment”

*Rotaru v. Vancouver Gen. Hosp.*,  
2008 BCSC 318 (Mar. 13, 2008)

---

---

---

---

---

---

---

---

## 4 Statutory Approaches

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

Typical response to  
"bad law" claims

Safe harbor immunity

---

---

---

---

---

---

---

---

1. UHCDA model
2. Ontario model
3. Texas model
4. Conscientious objection

---

---

---

---

---

---

---

---

**UHCDA**  
**model**

Statutory approach 1 of 4

---

---

---

---

---

---

---

---

New Mexico (1995)  
Maine (1995)  
Delaware (1996)  
Alabama (1997)  
Mississippi (1998)  
California (1999)  
Hawaii (1999)  
Tennessee (2004)  
Alaska (2004)  
Wyoming (2005)

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

**Tenn. Code 68-11-1808(e)**

“A health care provider . . .  
may decline to comply with . . .  
. . . health care decision that  
requires **medically  
inappropriate** health care or  
health care contrary to  
**generally accepted health  
care standards** . . .”

---

---

---

---

---

---

---

---

**Tenn. Code 68-11-1808(f)**

(3) . . . make all reasonable efforts to assist in the transfer . . .

(4) If a transfer cannot be effected, the health care provider . . . **shall not be compelled to comply.**

---

---

---

---

---

---

---

---

**16 Del. Code 2508(g)**

A health-care provider . . . that declines to comply . . . shall . . .

Provide continuing care, including continuing life sustaining care, . . . **until a transfer can be effected**

---

---

---

---

---

---

---

---

Are there “generally accepted healthcare standards”

1. Yes

2. No

---

---

---

---

---

---

---

---

**“Bad” safe harbor language**

“generally accepted  
health care  
standards”

“significant benefit”

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

Wide variation in what considered futile

- Some: only when 0%
- Others: as high as 13%

Lantos, Am J Med 1989

---

---

---

---

---

---

---

---

What threshold

Uncertainty in  
extrapolating from  
populations to  
individuals

---

---

---

---

---

---

---

---

“The essence of futility  
is overwhelming  
improbability in the  
face of possibility”

Bernat 2008

---

---

---

---

---

---

---

---

**Qualitative Futility**

- Benefit burden
- QOL
- Cost per QALY

---

---

---

---

---

---

---

---

## Treatment for septic shock in vegetative patient

---

---

---

---

---

---

---

---

---

---

## Goals of Medicine

- Cure disease
- Alleviate pain & suffering
- Restore function
- Prevent disease
- Prolong corporeal existence

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

Not just ambiguity  
Providers continue  
to create the  
“wrong” standard of  
care  
  
Dan Merenstein  
291 *JAMA* 15 (1994)

---

---

---

---

---

---

---

---

**Result of Ambiguity**

- Few futility policies
- Rare “full” implementation

---

---

---

---

---

---

---

---

---

# Surrogate selection model

Statutory approach 2 of 4

---

---

---

---

---

---

---

---

A proxy shall act in accordance

1. "directive . . . decisions"
2. "the maker's . . . wishes"
3. "maker's best interests"

---

---

---

---

---

---

---

---

## Wis. Stat. 155.20(5)

The health care agent **shall act** in good faith **consistently** with the desires of the principal . . . with any valid declaration . . . in the best interests of the principal

---

---

---

---

---

---

---

---

Wis. Stat. 155.60(4)

The **court may . . .**  
“**direct** the . . . agent  
to act in accordance .  
. . [or] rescind all  
powers”

---

---

---

---

---

---

---

---

Have you ever replaced  
a surrogate?

- 1. Yes
- 2. No
- 3. No, but  
saw it  
done

---

---

---

---

---

---

---

---

Helga Wangle  
(Minn. 1991)

---

---

---

---

---

---

---

---

## Surrogate with material COI

---

---

---

---

---

---

---

---

## Surrogate decision inconsistent with P preferences

---

---

---

---

---

---

---

Bernstein  
v.  
Superior  
Court of  
Ventura  
County  
(Feb. 2,  
2009).

---

---

---

---

---

---

---

---

Court to  
Barbara Howe:

Your own personal issues are  
"impacting your decisions"

"Refocus your assessment"

---

---

---

---

---

---

---

---

**Ontario  
Capacity  
and  
Consent  
Board**

---

---

---

---

---

---

---

---

**Limitations** of  
surrogate  
replacement

---

---

---

---

---

---

---

---

**Problem 1**  
Surrogates can often  
demonstrate congruity

---

---

---

---

---

---

---

---

**Problem 2**  
Providers lack evidence to  
demonstrate deviation

---

---

---

---

---

---

---

---

If cannot  
replace the  
surrogate, then  
(in those rare  
cases) just  
provide the  
treatment

---

---

---

---

---

---

---

---

We **still need** dispute  
resolution mechanisms for  
those intractable cases in  
which surrogates are  
“irreplaceable”

---

---

---

---

---

---

---

---

# Texas model

Statutory approach 3 of 4

---

---

---

---

---

---

---

---

You can stop LSMT for **any reason** if your **own** hospital's ethics committee agrees

---

---

---

---

---

---

---

---

**Tex. H&S Code 166.046**

- 48hr notice
- Ethics committee meeting
- Written decision
- 10 days
- No judicial review

---

---

---

---

---

---

---

---

**Tex. H&S Code 166.045**

A physician . . . is not civilly or criminally liable or subject to review or disciplinary action . . . if the person has complied with the **procedures** outlined in Section 166.046

---

---

---

---

---

---

---

---

## TX safe harbor

- Measurable procedures
- Safe harbor protection certain

## TN safe harbor

- Vague substantive standards
- Safe harbor protection uncertain

---

---

---

---

---

---

---

---

Emilio Gonzalez

---

---

---

---

---

---

---

---

April 14, 2006  
Emilio Gonzalez  
407 Neches St.  
Lockhart, Texas 78644

**SETON MEDICAL CENTER**  
A member of the SEVEN HOSPITALS ORGANIZATION

Dear Ms. Gonzalez;

We, the physicians and other members of the healthcare team, appreciate you taking your time to attend the patient care conferences regarding your son.

At the last conference, your son's physician discussed his brain condition and the poor prognosis for any further neurological improvement. As you know, the physicians involved in the care of your son believe that his condition is irreversible and that to continue certain treatments will serve to prolong his suffering without the possibility of cure. We understand that you do not agree with this position and want the hospital to continue to provide all current treatments for your son.

When disagreements of this nature arise, Texas law allows hospitals to call the hospital ethics committee meeting to review whether certain treatments are medically appropriate. A meeting has been called for the Seton Family of Hospitals Pediatric Ethics Committee to consider Emilio Gonzalez's care. This meeting will be held on February 16, 2007 at 09:00 a.m. in the 3<sup>rd</sup> floor boardroom at Brackenridge Hospital of Austin. The physicians providing care for your son, as well as the ethics committee members will attend the meeting. Under Texas law you have the right to attend and participate in this meeting. While that is not legally required, we strongly encourage you to be present for this discussion. You will be given the opportunity to ask questions regarding your son's care and to provide input into the committee's decision-making process.

---

---

---

---

---

---

---

---

## Step 2: HEC Meeting

---

---

---

---

---

---

---

---

## Step 3: HEC Decision

The Ethics Committee further recommends that

- The treatment plan for the patient be modified to allow only comfort measures (such as hydration, pain control and other interventions designed to decrease the patient's suffering).
- New complications that develop should not be treated, except with additional palliative measures, as appropriate.
- The patient's code status be changed to a DNR.
- Appropriate spiritual and pastoral care resources should be provided to Emilio's mother and family members.

In summary, the consulted members of the Ethics Committee concur with the recommendation by the Attending Physician and patient care team to withdraw aggressive care measures, including use of the ventilator, and to allow palliative care only. The Attending Physician, with the help of the Children's Hospital of Austin, will continue to assist the patient's family in trying to find a physician and facility willing to provide the requested treatment. The family may wish to contact providers of their choice to get help in arranging a transfer.

---

---

---

---

---

---

---

---

## Step 4: Attempt transfer

---

---

---

---

---

---

---

---

**Step 5: Unilateral Withdrawal**

No  
transfer

Withdraw  
11th day

---

---

---

---

---

---

---

---

---

# Texas: the bad and the ugly

---

---

---

---

---

---

---

---

Few **substantive** criteria for identifying inappropriate EOL treatment

Without substantive criteria, we must resort to **procedural criteria**

---

---

---

---

---

---

---

---

Intractable value conflict

Pure process

---

---

---

---

---

---

---

---

If process is all you have, it must have **integrity and fairness**

---

---

---

---

---

---

---

---

Is the TADA process fair?

---

---

---

---

---

---

---

---

**Procedural defects recognized**

Tex. S.B. 439 (2007)

Tom Mayo, Ga. St. U. L. Rev. (2009)

---

---

---

---

---

---

---

---

## Due Process

- Notice (48hrs)
- Opportunity to present
- Opportunity to confront
- Assistance of counsel
- Independent, neutral decision-maker
- Statement of decision with reasons
- Judicial review

---

---

---

---

---

---

---

---

No time to evaluate all these aspects of due process

Basically, providers should give patients what they give themselves

*E.g.* Peer review

*E.g.* Licensure actions

---

---

---

---

---

---

---

---

## Who Makes the Decision?

Intramural institutional ethics committee

But the HEC is controlled by the hospital

---

---

---

---

---

---

---

---

TADA recognizes need for some  
“independent” check

- Requires HEC review
- Prohibits referring physician from serving on HEC

But the current mechanism is  
**not** sufficient

---

---

---

---

---

---

---

---

TADA is **silent** on HEC  
composition

No community member  
requirement, like IRB

Lack of transfer is **not**  
external review

---

---

---

---

---

---

---

---

**COI**

More documented

More targeted

---

---

---

---

---

---

---

---

Conflict of interest (\$\$\$)

- Ruben Betancourt (NJ)
- Brianna Rideout (PA)
- James Bland (TX)
- Kalilah Roberson-Reese (TX)

Conflict of interest (other)

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

**Statement of Decision**

- Provide rationale
- Factual basis
- Considered, supported

But decisions are of variable quality

---

---

---

---

---

---

---

---

Issues that were identified and considered:

- The treatment team is in agreement that this is a terminal and irreversible condition which will result in his death.
- There is significant concern that this patient is suffering from pain related to his clinical condition.
- Dr. Wilson, Emilio's current attending physician, other physicians and other members of the patient care team believe Emilio is suffering and that the burdens associated with his current plan of care far outweigh any benefits that Emilio may be receiving.

---

---

---

---

---

---

---

---

Dear Mrs. Ella Davis and Family:

This is to inform you of the decision of the Medically Inappropriate/Futile Treatment Review Committee that met on January 21, 2009 at 5:30 p.m. As a reminder, this Committee was composed of independent clinicians who had not been involved in the treatment of Mr. Davis or any bioethics consult that was requested.

The attending and consulting physicians of Mr. Davis presented the clinical case to this Committee, after which the Committee and family were given the opportunity to ask questions. After reviewing the medical record and having had all questions asked and answered, the Committee is in agreement with the attending physician that the current artificial life sustaining interventions are medically inappropriate. Please see the enclosed documentation.

We understand that the patient advocate has given you information from the Texas Advance Directive Act regarding the right to seek transfer of the patient to another facility and the listing from the TDSHS registry of healthcare providers.

If we can be of further assistance please let us know.

Sincerely,

Harold Kurlander, MD  
Review Committee Chair

Robert Herman, MD  
Review Committee Facilitator

---

---

---

---

---

---

---

---

Memorial Hermann Memorial City Medical Center  
Decision of the Medically Inappropriate Treatment Review Committee  
Date JANUARY 21, 2009 Time 7:00 PM  
Patient Name MARICE DAVIS Medical Record # 20646526-8320  
Background: MULTIPLE O.A.'S, MULTISYSTEM FAILURE, SEPSIS, UNRESPONSIVE  
Intervention(s) under review: DIALYSIS, LAB, MEDICATIONS EXCEPT COMFORT MEASURES, MONITORING  
Committee's conclusion:  
The committee unanimously affirms the following intervention(s) is/are medically appropriate treatment in this case:  
DIALYSIS, LAB, MEDICATIONS EXCEPT COMFORT MEASURES, MONITORING

---

---

---

---

---

---

---

---

TADA is **silent** not only on substantive criteria but also on procedures and methodology

- E.g. quorum
- E.g. voting

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

Is TADA fair?

20%	1. Very fair
20%	2. Somewhat
20%	3. Neutral
20%	4. Somewhat unfair
20%	5. Very unfair

---

---

---

---

---

---

---

---

# Conscientious Objection

Statutory approach 4 of 4

---

---

---

---

---

---

---

---

No treatment relationship

May refuse to treat  
for **any** reason

---

---

---

---

---

---

---

---

Existing treatment relationship

Must continue to treat

---

---

---

---

---

---

---

---

**Termination: normally**

- Sufficient notice to find alternative
- Medical Board may require ~30 days

---

---

---

---

---

---

---

---

**Termination: life-and-death**

“free to refuse . . . upon providing reasonable assurances that basic treatment and care will continue”

*Couch* (N.J.A.D. 2000).

---

---

---

---

---

---

---

---

**Del. Code 2508(e)**

“ . . . provider may decline to comply . . . for reasons of **conscience.**”

---

---

---

---

---

---

---

---

**Del. Code 2510(a)(5)**

. . . provider . . . not subject to civil or criminal liability or to discipline . . . for . . . [d]eclining to comply . because . . . conscience . .

---

---

---

---

---

---

---

---

**Del. Code 2508(g)**

[If] decline to comply . . .  
(2) Provide continuing care, including continuing life sustaining care, . . . **until a transfer can be effected**

---

---

---

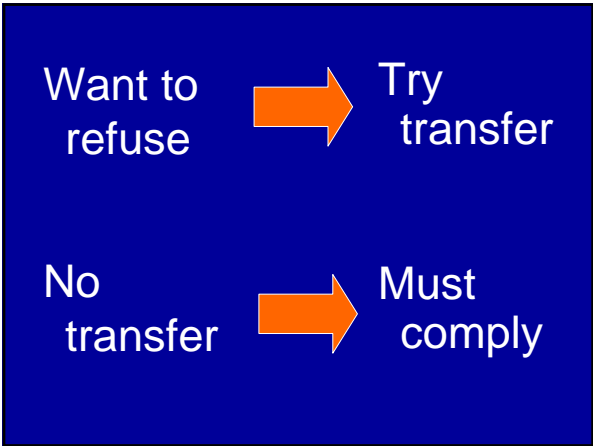

---

---

---

---

---

---

---

---

---

---

---

---

---

**Cal. Probate Code 4736**

(c) Provide continuing care . . . until a transfer can be accomplished **OR** until it appears that a transfer cannot be accomplished.

---

---

---

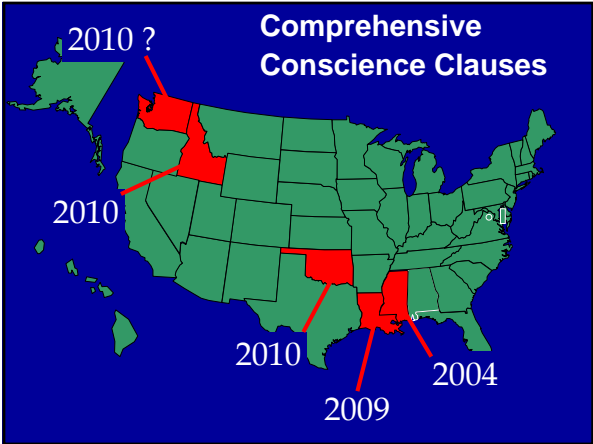

---

---

---

---

---

---

---

---

---

---

---

---

---

**Idaho Code 18-611**

No health care professional . . . shall be civilly, criminally or administratively liable for . . . declining to provide health care services that violate his or her conscience

---

---

---

---

---

---

---

---

. . . in a **life-threatening situation** . . . professional shall provide treatment and care **until** an alternate health care professional capable of treating the emergency is found.

---

---

---

---

---

---

---

---

**Miss. Code 41-107-5**

A health care provider has the right not to participate, . . . violates his or her conscience.

. . .

**No emergency exception**  
**No duty to refer**

---

---

---

---

---

---

---

---

# Looking Forward

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

Without legal support to w/d or w/h openly and transparently, some do it covertly.

---

---

---

---

---

---

---

---

TABLE 5

PROPORTION OF PHYSICIANS (n = 726) WHO WITHHELD  
LIFE-SUSTAINING TREATMENT ON THE BASIS OF MEDICAL FUTILITY

Consent Status	n (%)
Without the written or oral consent of the patient or family	219 (25%)
Without the knowledge of the patient or family	120 (14%)
Despite the objections of the patient or family	28 (3%)
